Blue Air restart operating from Turin to Cagliari effective March 2021

Blue Air enhances its operations in Italy by restarting the route Turin to Cagliari. The airline will introduce four weekly services between Turin and Cagliari, effective on 28 March 2021. Prices start from 14.99 euro/ one way, taxes, fees and one FREE change included.

Blue Air will operate up to 4 flights weekly service from Turin to Cagliari, according to the following schedule:

- *Monday, Wednesday, Friday, Sunday*
TRN 13:20 CAG 14:40
CAG 15:25 TRN16:40

“We are delighted to offer more travel options to our customers by restarting this highly demanded route to Cagliari. Despite the current highly restricted environment, we are confident that the implemented measures will produce meaningful results and our customers will be able to fly to their favorite destinations. We are committed to continue developing our network from Cagliari by offering best-in-class customer service at very affordable prices.”, says Krassimir Tanev, Chief Commercial Officer Blue Air.

Renato Branca Amministratore delegato SOGAER commented: *“The partnership started last year with Blue Air on the route from Cagliari to Turin was successful, so much so that the carrier resumes the connection to the start of the new summer, on March 28. I thank Blue Air for believing in the potential of Cagliari Airport and for the resumption of the line to Turin, which strengthens the offer of flights to and from Northern Italy, fundamental both in terms of business travel and for the leisure segment, developing an important and historic traffic director in both directions. Our hope is that the Company will soon be able to further expand its network to and from Cagliari ”.*

Blue Air is constantly developing its Italian network, connecting Turin to 9 key Italian destinations: Alghero, Bari, Cagliari (NEW), Catania, Lamezia Terme, Naples, Palermo (NEW) Olbia (NEW), Trapani.

About Blue Air:

Blue Air is the largest Romanian airline by number of passengers transported, with an Ultra - Low - Cost (ULC) business model and with an approach centered on passenger needs.

With a team of over 1,000 aviation enthusiasts, Blue Air has an [impeccable flight safety record](#). The company operates Boeing 737 aircraft. In its 16 years of operation, Blue Air has carried more than 32 million passengers and flown over 340 million kilometers. The company is certified IATA Operational Safety Audit (IOSA) by the International Air Transport Association (IATA) for exceptional operating standards and is a full IATA member.

About Blue Cagliari Airport:

SOGAER, which has been managing Cagliari Airport since 1992, is committed daily to ensuring airport services at the highest levels of quality and safety, planning the growth of airport structures and facilities and encouraging the development of economic activities both within the airport and in the territory. After obtaining in 2007 the total management of the Cagliari airport for 40 years, SOGAER secured in 2012 the approval of ENAC for the program contract. Since 2016, SOGAER has been participating in the 'Airport Carbon Accreditation', an independent and voluntary program that aims to progressively reduce CO2 emissions at the airport. The company's management is currently engaged in expanding the flight network and in carrying out important infrastructure works that will significantly improve the comfort and efficiency of the airport.

The 'Mario Mameli' Airport in Cagliari-Elmas is the most important airport in Sardinia both in terms of traffic volumes and size. Cagliari is currently connected with direct scheduled flights to the main European and national destinations.
